

Scanning and Mobility Reference Guide

**Solutions that
Enable Productivity**

Honeywell

smart solution

Honeywell's Dolphin® 9900 Mobile Computer is built to work harder so you can work smarter.

The Dolphin 9900 delivers on the needs of today's businesses. You get the technologies to capture and communicate more information on the front lines of your business—keeping you more connected with your employees, your customers and your supply chain.

The Dolphin 9900 series was recently expanded with the introduction of the Dolphin 9950. The Dolphin 9950 features an integrated pistol grip that provides comfortable single-handed data collection over extended shifts.

The Dolphin 9900 enables productivity, allowing your employees to work smarter and achieve a competitive edge.

Honeywell

Honeywell Scanning & Mobility is a leading manufacturer of high-performance image- and laser-based data collection hardware, including rugged mobile computers and bar code scanners. Our product portfolio is one of the broadest in the AIDC industry, providing you with solutions for vertical markets such as retail; healthcare; and transportation and logistics. We complement our innovative products with advanced software, service and professional solutions that enable customers to effectively manage data and assets. Honeywell products are sold worldwide through a network of distributor and reseller partners. For more information, please visit www.honeywell.com/aidc.

Hand-Held Scanners

LASER SCANNERS

Warranty
3 yrs

MS5145 Eclipse™

- Laser based-alternative with longer working range and wider scan field than typical CCD scanners
- CodeGate® data transmission is ideal for menu-scanning applications
- CodeSense® technology allows for PowerSave mode and automatic wake-up

Warranty

MS9520/40: 5 yrs
MS9535: 2 yrs

MS9520 Voyager
MS9535 VoyagerBT
MS9540 VoyagerCG

MS9500 Voyager® Series

- Automatic trigger allows scanner to function as a hand-held or fixed presentation device
- CodeGate data transmission is ideal for menu-scanning applications
- Full scanner line offers models that decode all 1D bar codes including high density codes (MS9521/41 only) for application specific needs

Warranty
5 yrs

MS9590 VoyagerGS®

- Ergonomic design allows scanner to fit comfortably into a wide range of hand sizes
- Increased scan speed provides an aggressive solution for scanning all standard 1D codes
- Automatic in-stand detection aids in seamless presentation mode scanning
- Optional integration of RF EAS antenna increases efficiency by simultaneously deactivating RF EAS tags and decoding bar codes

Warranty
2 yrs

IS4225

- Wearable scanner fits comfortably on back of hand, preventing operational fatigue
- Automatic scanning facilitates speedy operation by eliminating the need for repeated button presses
- Mounts to virtually any device, taking up minimal space

LINEAR IMAGERS

Warranty
3 yrs

MS3780 Fusion®

- Primary omnidirectional scan pattern increases throughput by scanning codes in any orientation
- Secondary single-line scan pattern facilitates targeted menu scanning
- Automatic in-stand detection facilitates seamless presentation mode scanning
- Optional integration of RF EAS antenna increases efficiency by simultaneously deactivating RF EAS tags and decoding bar codes

Warranty
5 yrs

3800g
3800gPDF
3800gHD

3800g Series

- Optimal combination of scanning speed and read range to meet most application requirements
- Comfortable, lightweight design for scan intensive use
- Built to endure the rigors of high-use environments
- Specialized options for high-density and PDF bar code reading

Warranty
3820: 3 yrs
3800r: 5 yrs

3820
3800r

3800r Series

- Specialized for extended range scanning with integrated retail interfaces
- Optimal for use as an auxiliary scanner—minimizes lifting heavy or bulky items at the POS
- Coded or Bluetooth® wireless connectivity options
- FIPS 140-2 Certified Encryption option (3820 only)

Warranty
3820i: 3 yrs
3800i: 3 yrs

3820i
3800i

3800i Series

- Industrial-grade durability with impact-absorbing housing
- Environmentally sealed against dust and moisture intrusion, and withstands extreme temperatures
- Extended read range
- Coded or Bluetooth® wireless connectivity options
- FIPS 140-2 Certified Encryption option (3820i only)

MS1600 Focus® Series

4600g/4820

4600r Series

- Provides increased throughput for virtually all 1D and 2D bar code reading applications—including poorly printed or damaged bar codes
- Omnidirectional scanning eliminates the need to orientate the scanner to a bar code
- Avoid cable clutter and tangles with Bluetooth® wireless connectivity (MS1633 only)

- High performance linear and 2D bar code scanning
- Durable, light-industrial construction ensures dependability
- FIPS 140-2 Certified Encryption option (4820 only)
- Disinfectant-ready housing option for healthcare environments
- Coded or Bluetooth® wireless connectivity options
- Bluetooth Interface Module Option (4820 only)

- Designed specifically for point of sale (POS) presentation scanning applications delivering enhanced functionality only possible with a 2D imager
- Presentation scanning performance on linear bar codes
- Enables drivers license reading for enhanced customer service applications such as e-forms and ID verification

Warranty

4820i: 3 yrs
4800i: 5 yrs

4820i

4800i Series

6000 Series

- Industrial-grade durability with impact-absorbing housing
- Environmentally sealed against dust and moisture intrusion, and withstands extreme temperatures
- FIPS 140-2 Certified Encryption Option (4820i only)
- Coded or Bluetooth® wireless connectivity options
- Bluetooth Interface Module Option (4820i only)

- Custom DPM technology combines specialized illumination, optics and decoding software all optimized for DPM applications
- Easy-to-use software set-up tool optimizes the lighting, optics and decoding to ensure top performance in your environment
- Rugged, ergonomic design to withstand the most demanding environments

Bioptic Scanners

LASER SCANNERS

Warranty
3 yrs

MS2300 StratosH®

- Six-sided, 360° scanner/scale series optimizes checkout productivity with aggressive pass through scanning, regardless of product orientation
- Mettler Toledo dual interval scale withstands harsh checkout environments, offers a fast settling time and provides accurate, high resolution weighing
- StratosSYNC™ features independent vertical and horizontal scanning planes that ensure uptime

Warranty
3 yrs

MS2122 StratosE®

- Smallest six-sided, 360° bioptic scanner in the market optimizes checkout productivity with aggressive pass through scanning, regardless of product orientation
- StratosSYNC features independent vertical and horizontal scanning planes that ensure uptime
- StratosSWAP™ provides field replaceable optical modules that minimize down time and lower costs

Warranty
2 yrs

MS2400 Stratos®

- Five-sided, 360° scanner/scale series optimizes checkout productivity with aggressive pass through scanning, regardless of product orientation
- Mettler Toledo dual interval scale withstands harsh checkout environments, offers a fast settling time and provides accurate, high resolution weighing
- StratosSYNC features independent vertical and horizontal scanning planes that ensure uptime

Hands-Free Scanners

LASER SCANNERS

Warranty
3 yrs

MS7120 Orbit
MS7180 OrbitCG

MS7100 Orbit® Series

- Customized depth-of-field for tight scanning
- Omnidirectional presentation laser bar code scanner engineered for first-pass read rate accuracy
- Contour shape enables it to be picked up for easy scanning
- CodeGate data transmission is ideal for menu-scanning applications (MS7180 only)

Warranty
3 yrs

MS3580 QuantumT®

- Custom configurable scan pattern
- Three modes of operation: raster, single-line or omnidirectional
- Various stand options which meet user needs
- Extremely aggressive with 1650 scans per second
- Small form factor

Warranty
3 yrs

MS7320 InVista®

- Built in RF EAS antenna increases efficiency by simultaneously deactivating RF EAS tags and decoding bar codes
- RS232 auxiliary port allows additional peripherals such as hand-held scanners to be connected
- Field-replaceable window minimizes downtime with quick and easy in-lane replacement

Hands-Free Scanners

LASER SCANNERS

Warranty
2 yrs

MS7820 Solaris™

- Aggressively decodes high-density bar codes and optimizes checkout procedures
- Multiple on-board interfaces provide infrastructure protection and ensure compatibility with POS systems
- Diagnostic indicator decreases downtime with easy troubleshooting

1D EAS SMS

Warranty
3 yrs

MS7600 Horizon®

- Compact in-counter omnidirectional scanner
- Built in RF EAS antenna increases efficiency by simultaneously deactivating RF EAS tags and decoding bar codes
- RS232 auxiliary port allows additional peripherals such as hand-held scanners to be connected
- Glass and Diamonex window options

1D EAS SMS

AREA IMAGERS

Warranty
2 yrs

IS1650

- Omnidirectional scanning eliminates the need to orientate the scanner to a bar code
- Scans/decodes all standard 1D and 2D bar codes
- CodeSelect™ technology scans up to seven bar codes in a single flash then outputs data in any predetermined order
- IR object detection provides activation for hands-free applications

Software

SOTI MobiControl

- Enables centralized remote management of Dolphin mobile computers and image kiosk solutions
- Tracks hardware and software assets
- Performs scheduled or ad-hoc file/data synchronization
- Compatible with Dolphin® mobile computers

PowerNet Twin Client

- Connects Dolphin® WLAN mobile computers directly to host applications via TN3270, TN5250 or TNVT terminal emulation and industry-standard TCP/IP protocol
- Enables customized functionality for wireless data collection including keyboard mapping, automated login capabilities and pass-through printing
- Simplifies integration of Dolphin® WLAN mobile computers into a variety of mainframe and open system application environments
- Compatible with Dolphin® 7600, Dolphin® 7850, Dolphin® 7900, Dolphin® 9500 Series, Image Kiosk 8560

ITScript Net

- Allows programmers and non-programmers to quickly and easily write effective data collection applications
- Saves development time by testing data collection applications before deployment
- Compatible with Dolphin® 7600, Dolphin® 7850, Dolphin® 7900, and Dolphin® 9500 Series

NEW PRODUCT

EasyID™

- Parses bar code data found on government-issued identification cards for applications involving age verification or automatic electronic form population
- Eliminates the need for host system software to process the encoded information contained within 1D and 2D bar codes found on government-issued identification
- Compatible with MS7580 Genesis, MS1690 Focus®, MS1633 FocusBT, IS4920 and IS1650

Omniplanar™ SwiftDecoder™

- Provides hand-held scanners with snappy performance and fixed scanners with industry-leading decode times
- Increases read rates of damaged and poorly printed real-world bar codes
- True 360° omnidirectionality increases ease-of-use and first-pass reads

Omniplanar™ SwiftDimension™

- Enables existing fixed-position automatic identification imaging systems to capture accurate two-dimensional measurements of objects within 0.5", eliminating the need for costly or bulky dimensioning equipment
- Maximizes uptime and reduces maintenance by eliminating additional hardware components

Omniplanar™ SwiftJPEG™

- Achieves significantly higher compression ratios than standard JPEG compressors
- Preserves critical image detail for review purposes
- Increases image storage capacity by 20–30 times

Omniplanar™ SwiftOCR™

- Provides existing AIDC imaging devices with high-speed optical character recognition (OCR) of OCR-A, OCR-B and MICR characters, without needing additional OCR dedicated hardware
- Templated-OCR software designed specifically for AIDC hardware reduces costs associated with full-page-OCR software

Omniplanar™ SwiftVerify™

- Allows existing AIDC hardware to quickly and accurately verify 1D and postal bar codes based on ISO/IEC, ANSI and MERLIN specifications
- Authenticates verification results with a single pass over a bar code instead of traditional multi-swipe methods
- Increases workplace efficiencies by allowing operators to both scan and verify with a single piece of AIDC hardware

Services and Professional Solutions

Service Made Simple*

Honeywell's comprehensive service program provides customers with easy, hassle-free repair service for their hand-held, hands-free and bioptic scanners, as well as mobile computers.

Service Made Simple™ is an affordable solution to help ensure front-line devices are always operating at top performance.

- Full Comprehensive Coverage—devices are covered for normal wear & tear or accidental breakage
- Quick-Turnaround Promise—Hand-held, hands-free and bioptic products will be serviced in one business day, mobility products will be serviced in three business days, and all will be returned to your site via expedited delivery
- Value-Add Maintenance—engineering changes, such as firmware upgrades, will be implemented on your devices during the repair process at no extra cost

Enterprise-Level Custom Service Programs and Factory Warranty Extension Service Plans

Factory Warranty Extensions

For customers who are only interested in factory warranty extensions, Honeywell has a solution. You can extend your products' factory warranty in yearly increments up to a total of five years. Best of all, this can be purchased at any time, and renewed annually. For devices under warranty extension, Honeywell guarantees a 10 day turnaround time.

Enterprise-Level Custom Service Programs

Honeywell offers custom service programs for high-volume customers that require an increased level of support. Features include:

- Asset Tracking
- Application Loading
- Custom Reporting
- Spares Management
- Battery Management
- Custom Packaging/Labeling
- Coverage Levels
- Turnaround Time

Professional Services

Our team of Honeywell professionals and business partners can assist you with in-depth solution planning and project execution, ranging from site analysis and consulting to software application development and system installations—all helping to ensure that your project goals and long-term needs are met.

Software Services

Our software consultants and business solution partners work as an extension of your development team to understand your specific software application requirements and help you build an application that best suits your business needs.

Equipment Configuration and Staging

Device staging and configuration can be an extremely inefficient process to manage internally. We have the ability to save you time and money, improving your overall ROI—by providing devices completely configured for a full “out of the box” solution.

Custom Hardware Configuration

Specifically designed for enterprise-class customers with unique requirements, we offer the option to customize your hardware solutions in a variety of ways to optimize usability in specific applications.
