1. Reject Pocket

2. Stacker Pocket

sbm

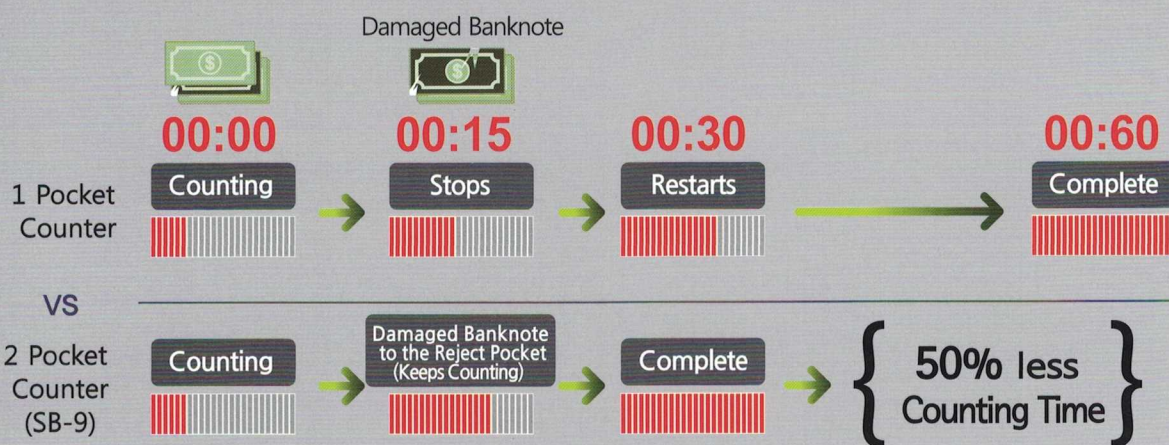

Why 2 Pocket ?

50% Less Counting Time !!!

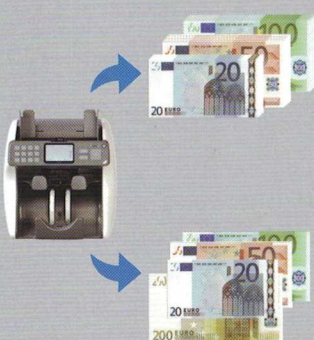

When counting a damaged banknote

- 1 pocket counter stops to remove the damaged banknote
- 2 pocket counter keeps counting because it sends the damaged banknote to the reject pocket

□ Counting 500 Pieces of Banknote

■ Key Function (Useful where handling large amount of bank notes)

+ Sorting

Sorts each denomination

+ Value-Counting

Total the counted amount

Public Transportation
Religious Group
Hospital
Bank
Other Financial Institutions

1. Excellent Performance

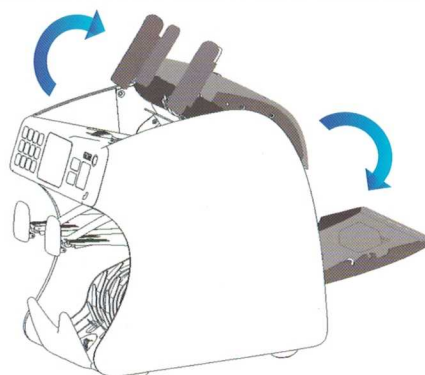

■ Less Jam

Shorter Banknote Path

SB-9	180 mm
Other Machine 1	230 mm
Other Machine 2	280 mm

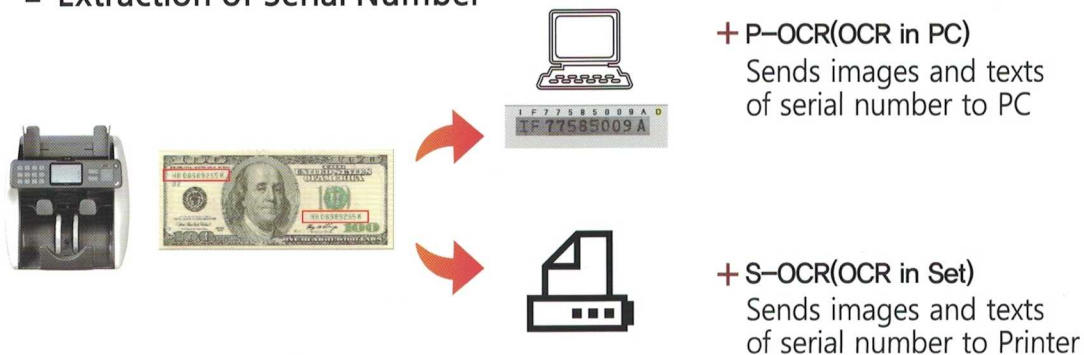

SB-9 has a shorter banknote path.
The shorter the path, the less jamming.

Easy Jam Removal

2. Additional functions

■ Extraction of Serial Number

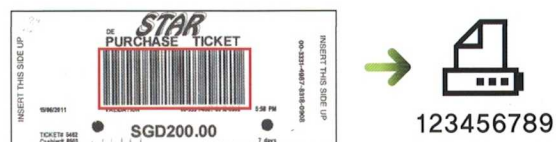

■ Comparison of Serial Number

- ▶ Composite note is made of genuine notes. Thus usual detecting technology does not work.

■ Barcode Reading

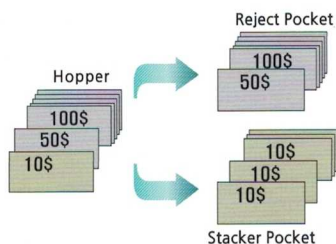

- Sends serial number to printer
- Counts the banknotes and tickets simultaneously
- Useful at Casino, Theatre, Bus Terminal, etc.
- ▶ Whole ticket image capturing feature is coming soon

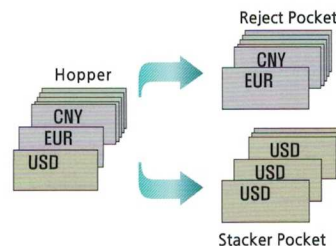

■ Auto Configuration(no need to press button)

- SB-9 detects currency and denomination of the first banknote, based on which SB-9 automatically configures its setting without pressing any button

■ Auto denomination configuration

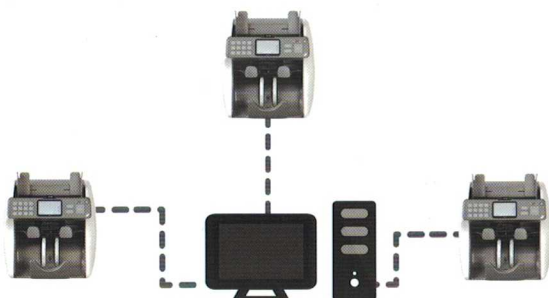

■ Auto currency configuration

3. Easy Maintenance

Remote Upgrade(LAN)

- ▶ Remote Upgrade is coming soon

Easy Upgrade with USB Memory Stick

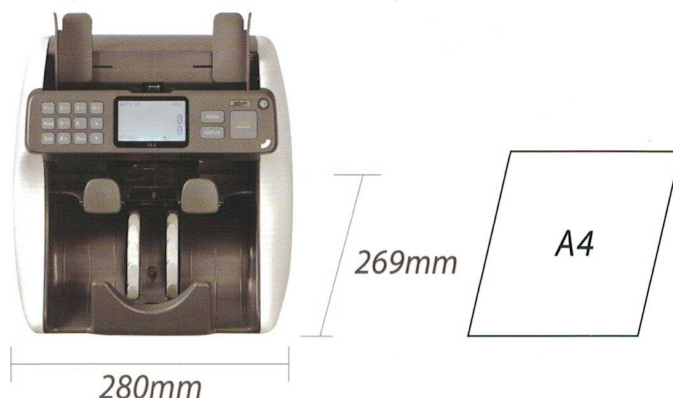

- ▶ Upgrade in 3sec.
